

The diagram features a white rectangular area enclosed by a thin black border. Inside this area, there are two concentric rectangles. The outer rectangle is defined by a red dashed line, representing the document size with bleed. The inner rectangle is defined by a black dashed line, representing the final trimmed document size. The space between these two lines is white. To the left of the text, there are three horizontal line segments: a red solid line, a black solid line, and a blue dashed line. The text to the right of these lines explains their meaning.

— = Document size with bleed

— = Final trimmed document size

— — = Keep text or anything you do not
want cropping within this area

Trim Size 55mm (h) x 85mm (h)
